working multiplayer A: Looks like this is caused by bad data in a game file. A computer game file is just a text file. It contains information about the game. The most important is the.xml file which contains the information about the game and the enemies in it. So you just need to search for a.xml file in your game directory and make sure that this file is not corrupted.

Stammebeek Stammebeek (, literally: upper stream) is a canal in the center of Amsterdam, Netherlands. It flows in a north–south direction from the Amsterdamse Bos in the south, through the borough of Amsterdam-Noord, and on to Zandhoek on the Singel in the north, before emptying in the IJ. In its northern section it is the only waterway connecting the city with the IJ (though it is bridged by a tunnel under the Singel), the section between the Singel and the IJ is known as the Oude Gracht (Old Canal). History The original Stammebeek is a branch of the Rozengracht (now the Oude Gracht), which was constructed in 1625. At that time, it linked the Prinsengracht to the Oude Handelsgracht. This section of the Rozengracht was at that time known as the Stammebeek (upper stream). A second branch, the De Ruyterbeek, was constructed in 1630 and connected to the Waterlooplein, part of the South Amsterdam, a dock area that was moved to the Dam. The upper stream of the Rozengracht was covered in the

19th century, and a canal was constructed in its place, partly covering the Prinsengracht.

Name The name Stammebeek (stam: stem/stemme: stream, beek: canal) derives from the origins of the Rozengracht, which was a branch of the broader Rozenstraat (Rose Street). At that time, the Rozengracht was a street with houses which, as
